

AL TSA
Leading with LED

LEADING THE WAY
WITH LED

ALTSA leads with LED

Cutting-edge LED lighting and electrical solutions for Africa.

- ALTSA is a leading commercial and industrial LED Lighting Solutions provider in Africa, as well as the largest lighting replacement company in Africa.
- ALTSA operates in eight countries on the African continent: South Africa (Head office), Nigeria, Tanzania, Democratic Republic of Congo, Uganda, Kenya and Mozambique, Botswana and Ghana (agency).
- Since 2011, ALTSA has grown significantly throughout Africa within its own network as well as through agency networks.
- ALTSA currently employs 150+ people internationally.
- ALTSA distributes its own premium range of LED lamps and luminaires, assembled in South Africa, to regional offices both nationally and internationally.

We transform the way energy is consumed by providing sustainable, environmentally friendly lighting solutions to benefit people, improve communities and impact positively on society as a whole.

We strive to be the leading supplier of ground-breaking LED lighting solutions, cutting-edge technology.

CUSTOMER ORIENTATED

We staff are dedicated to go the extra mile in building long-term relationships while helping customers feel good in their environments, with compliant lighting solutions and profitable return on investment (ROI).

We partner with our customers on their journey to sustainable energy.

OUR VALUES

INTEGRITY:

We are honest, fair and demonstrate respect to our customers and colleagues.

ACCOUNTABILITY:

We follow through with what we say and hold ourselves to the highest standards.

HARD WORK:

We deliver outstanding results through our culture of exceptional service.

TEAM WORK:

We support one another to deliver results for our customers and our company.

INNOVATION:

We seek creative and innovative ways to solve our customers' challenges.

BBBEE Rating

We are a proudly South African, certified Level 1 Broad Base Black Economic Empowerment Contributor. We are committed to accelerating black economic empowerment by actively creating employment opportunities through the local assembly of all our products:

CERTIFIED LEVEL 1

COMMUNITY DEVELOPMENT

EMPOWERING PEOPLE

ALTA 5-Year Guarantee

We take immense pride in our ISO9001 national and internationally certified product range. We offer our customers a 5-year guarantee with an option to extend to 10 years.

Compliance

ALTA ensures compliant lux levels over the full warranty period.

Product Range

ALTA offers Indoor, and outdoor lighting solutions that are ideally suitable for commercial and industrial sites - especially areas that require robust, hard-wearing and explosion-proof luminaires.

CERTIFICATE

ALTA takes pride in distributing a locally assembled range of 190+ lamps and luminaires:

- Long life -up to 100,000 hrs.
- High efficiency - up to 200lm/W.
- Compact, High-quality Profile Designs.
- Wide Operating Temperature Range -50° C to +55° C and up to 80° C on thermal resilient models.
- Easy Installation and low maintenance.
- Manufactured to withstand high, consistent volumes of dust and moist offering IP ratings of up to IP68.
- High electrical and mechanical specifications.
- All products carry a range of SANS and IEC certifications.
- Our EX range carries IECEx certification.
- All products have battery backup and sensor options.

Leading industry into new light, sustainably

ALTSA offers cutting-edge LED lighting solutions that can be tailored to suit your project needs, and meet compliance and regulatory considerations across a wide range of industrial sectors.

We understand the key issues and drivers for your industry sector, as well as the services, standards and solutions to address those challenges.

Benefit your bottom line

ALTSA LED lighting solutions offer:

High energy efficiencies: this is achieved through LED chipsets converting 90% of the energy consumed into light.

Longer Lifespan: luminaires last up to a minimum of 50,000 hours and come with a standard 5-year guarantee.

Low/Zero Maintenance: ALTSA luminaires are stress, vibration and temperature resistant making them ideal in hard working environments.

Increased light quality: improved colour rendering and a more natural looking light makes our luminaires ideal for industrial and commercial workplaces.

What makes ALTSA a preferred supplier

1. Product Guarantee

ALTSA's indoor, outdoor range and speciality product ranges are manufactured from the highest quality components, locally assembled.

5 Year Guarantee

- Our 5 Year guarantee comes standard on light output and includes up to a 25 year lifespan guarantee.

Service Commitment

- We commit to replace luminaire failures, service and maintain installed products.

ISO9001

- We offer the highest quality products and services that meet customer needs and comply with regulatory requirements.

2. Unequalled Technical Specification

Whatever your lighting demands, our product range offers unequalled technical specifications.

Specifications

- Our functionality and sustainability specifications are unmatched in our industry.

Efficiencies

- ALTSA luminaires offer light efficiencies of up to 200 lumen per Watt.

Light Angles

- Many of our products are adaptable and can be purpose-built, offering unique distribution angles.

Sustainability

- Designed to last, our products can deliver in hot or harsh environments and for 50,000 to 100,000 hours.

Quality

- High quality electrical products

ALTSA's customer promise:

ALTSA provides the lowest total cost of ownership over extended periods, offering our customers significant returns on their investment

3. Professional Lighting Design Office

Our design team's technical expertise ensure our customers get the best design that drives your business' sustainability journey.

Design

- We always offer our professional lighting designs and source the best solution.

Turnaround

- We are proud of our record for delivering complete design plans, quickly.

Quality

- All our designs are of the highest quality including reticulation design work that indicates lux levels.

4. Installation & Onsite Replacement

ALTSA is the largest LED light installation company in South Africa and we pride ourselves on our expedience and experience in meeting the lighting demands of commercial businesses throughout Africa.

Speed & Efficiency

- Our teams work efficiently and effectively on site ensuring projects offer almost zero impact on your business productivity.

Electrical Capability

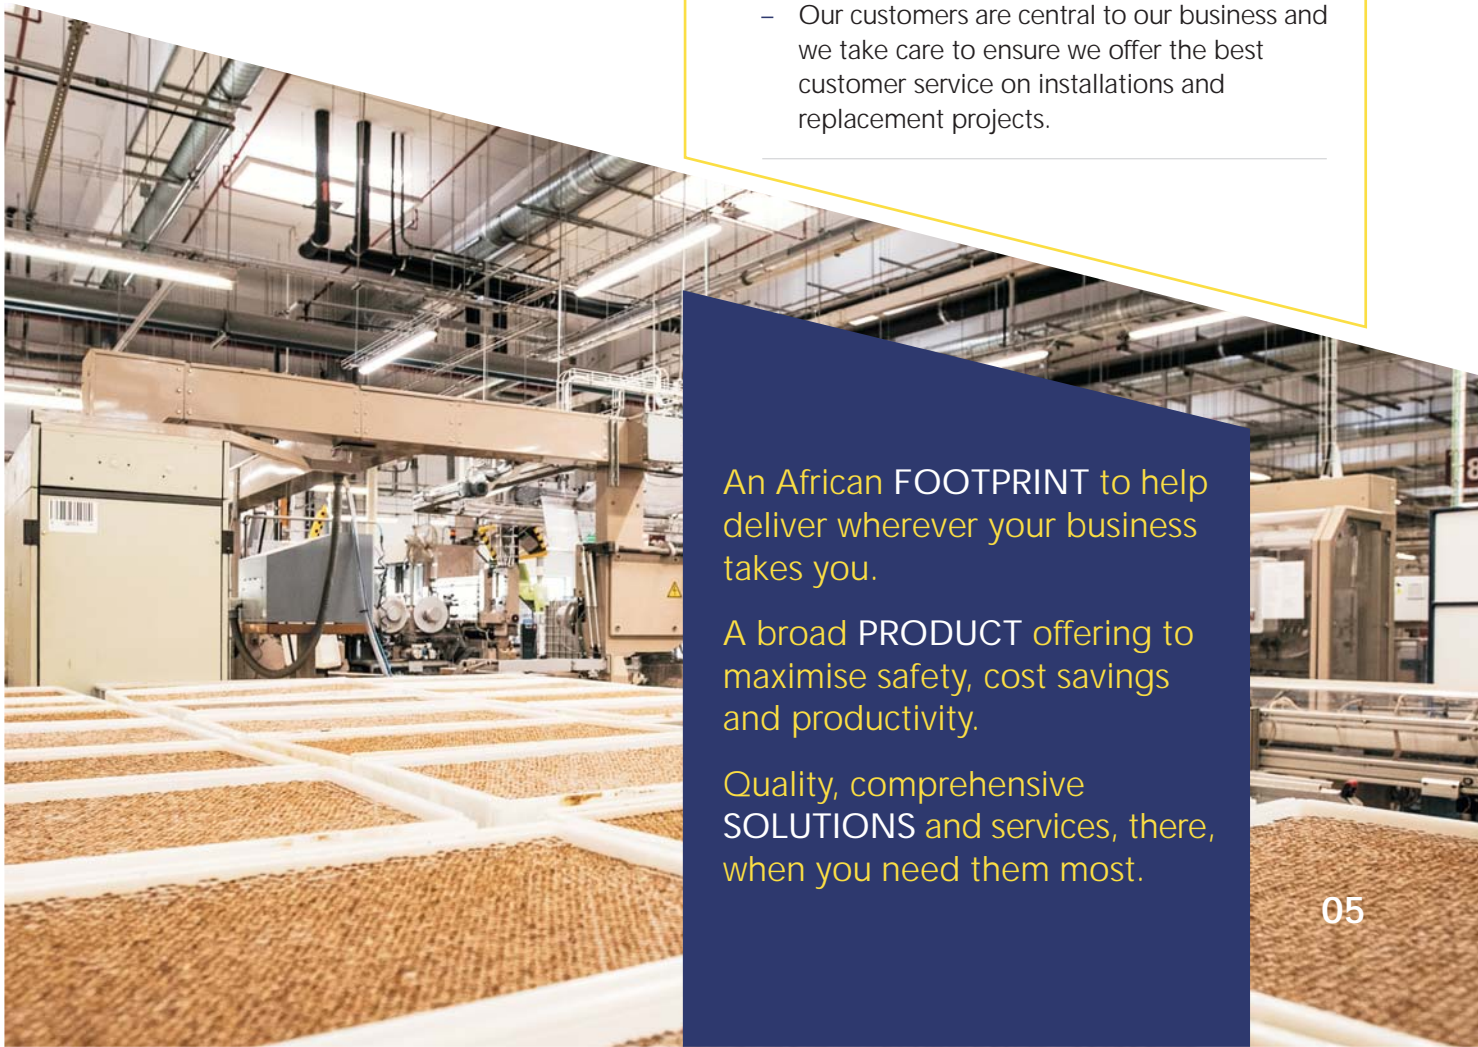

- Our technical teams have a diverse skillset and are qualified to perform major electrical work.

Footprint

- ALTSA's experience reaches across a number of industries throughout Africa, and we are actively growing our presence into new regions.

Service

- Our customers are central to our business and we take care to ensure we offer the best customer service on installations and replacement projects.

An African FOOTPRINT to help deliver wherever your business takes you.

A broad PRODUCT offering to maximise safety, cost savings and productivity.

Quality, comprehensive SOLUTIONS and services, there, when you need them most.

5. Pricing Office & Delivery

ALTSA offers four financial options for your investment into your business' sustainability journey.

Turnaround

- Our estimators work to ensure a 24 hour turnaround on standard quotes.

Competitive

- Business-model allows for very competitive pricing.

Expedient

- Quick and on-time delivery.

6. Local Content & Custom Built Lighting Solutions

Any of our products from either our indoor or outdoor ranges can be customised to your specific needs.

Assembly

- Our high quality products are locally assembled.

Turnaround

- We are able to offer fast turnaround on product assembly.

Luminaires

- We have capacity to offer 8-week delivery on non-standard luminaires.

Our lighting solutions are suitable for the following applications:

Infrastructure

Power plants

Factories & Mills

Refineries

Railways

Warehousing

Manufacturing Plant

Construction

Harbours & Ports

We cater for large-scale Industry:

Mining

Oil & Gas

Quarrying

Handover Project Files:

The ALTSA team provides you with:

- Summary
- Lighting Design
- BOQ - Costing Summary and Detail
- Data Sheets
- Lighting Design Files (incl. CAD/Revit files)
- IES Files

Support Services Process

1 STEP:

Receive drawings: Drawings are vital to our design and quoting offices. Pole and bracket drawings, floor layout drawings, single line drawings, CAD drawings, and 3Ds file. Our quoting office prices according to the specifications on the drawings in terms of lighting poles, mounting brackets for light fittings (spigots, wall mounting, ceiling mounting), and substations/ kiosk according to single line drawings. Our design team uses the floor layout drawings, CAD drawings and 3Ds files to complete their design according to the clients required layout

2 STEP:

Analyse lighting applications: ALTSA's technical office analyses the application of the light fittings required, different applications require different types of light fittings, our technical team are highly qualified and highly experienced in the lighting industry and propose the best type of fitting to produce the highest quality of lighting output for the required application.

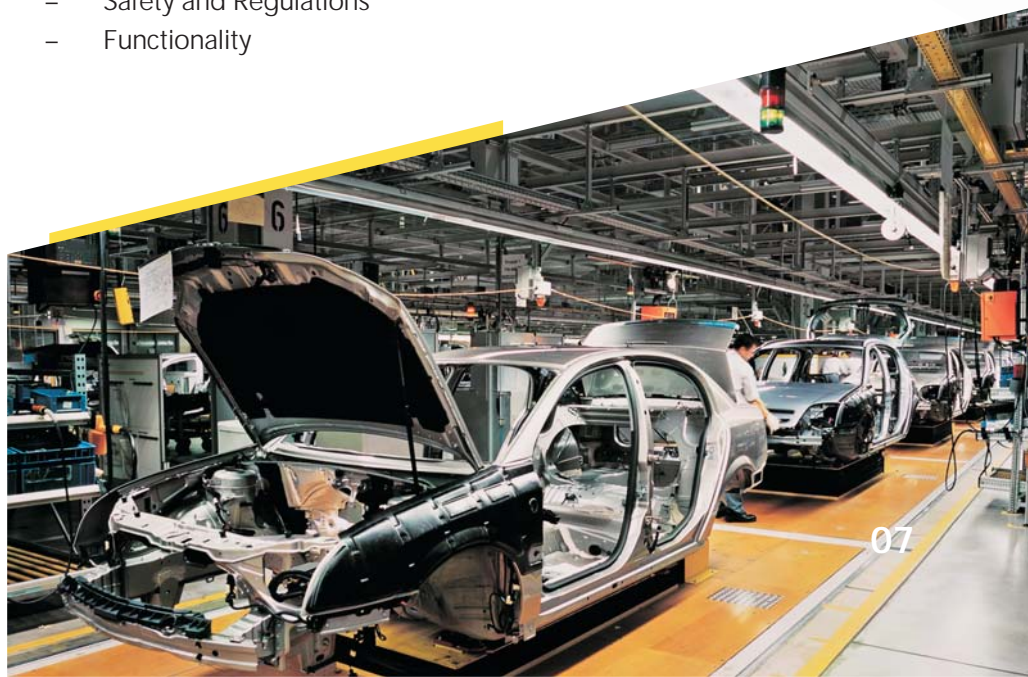

3 STEP:

Complete total design: ALTSA offers our customers lighting designs and electrical reticulation designs.

4 STEP:

Summarise lighting design: Lighting design is a specialized field that focuses on the planning and implementation of lighting systems to enhance the visual environment of a space. It involves a careful consideration of various factors to create effective and aesthetically pleasing illumination. Here are some key points to summarize lighting design:

- Aesthetic Enhancement
- Energy Efficiency
- Layered Approach
- Color Temperature
- Control Systems
- Maintenance and Sustainability
- Safety and Regulations
- Functionality

Right solution for your application

General product features

ALTSAs indoor and outdoor range offers innovative lighting especially for commercial applications:

Efficiency: Up to 200 lumen/Watt

Lifespan: 50,000hours - 100,000hours

IP Rating: Up to IP 68

Robust: Impact rating up to IK10
Vibration resistance

Corrosion: Resistant

Versatility: On beam angle and light distribution

Power supply: High quality

Certifications: Strict adherence

ALROS: Web-based maintenance and replacement
management system

Product Lifespan

Hours: Up to 100 000 Hours is realistic

Luminous flux: L90B10

Test reports: LM79 & LM80 reports consistent with TM21 test

Power Supply Quality and Functionality features

Manufacturer:	Meanwell, Shenzhen, Sosen
Voltage Range:	90 - 305VAC
Power Factor:	0.95
THD:	Less than 20% - (< 10% available)
Over Voltage Control:	Shut down & re-power
Temperature:	Working Temperature -40°C - 90°C
Vibration Resistance:	10 ~ 500Hz, 5G 12min./1cycle, period for 72min
Efficiency:	Greater than 92%
Compliance:	Dali Compliant
Surge Protection:	4kV to 20kV
EMC Immunity:	Compliance to EN61000-4-2, 3, 4, 5, 6, 8, 11; EN61547

Our 5-Year guarantee

We take immense pride in our SABS approved product range and we are confident of our quality and expertise.

We deliver on our promise to deliver every time, and our guarantee comes standard on:

LUMINANCE:

Achieving recommended and regulatory Lux levels.

WORKMANSHIP:

Quality installations

PRODUCT:

Indoor, Outdoor and Speciality ranges

Our excellence is recognised

We ensure our diverse range of indoor, outdoor and speciality lighting adheres to the highest industry standards. Which is why our products have received multiple National and International certifications.

We are proud to have been awarded several accolades, shining a light on our position as leaders in the LED industry.

A proven track record

AL TSA is proud to have completed major, large-scale installation projects at more than 400 local and multi-national businesses throughout South Africa and the African continent.

We look forward to partnering with your business and positively impacting our society, together.
