

# Rhino GROWLIGHT

## OUTDOOR SERIES

## PRODUCT OVERVIEW

The **AL TSA GROW Light** is designed to stimulate plant growth by emitting light appropriate for photosynthesis. Used where there is either no naturally occurring light, or where supplemental light is required.

The **AL TSA GROW Light** provide a Humulus Lupulus grow light spectrum. Outdoor conditions are mimicked with varying colour and spectral outputs from the grow light.

The **AL TSA GROW Light** offers lamp life of more than 50 0000 hours, and produce no heat therefore eliminating burning of plants unlike their HID counterparts. Equipped with a Meanwell Driver, the **AL TSA GROW Light** offers excellent value for money.

## APPLICATIONS

Any application where artificial lighting is required to stimulate plant growth

## FEATURES

Water, Dust, Damp & Pressure Proof

High Luminous Efficiency (100lm/W)

Excellent heat dissipation

Easy Installation

Warranty: 5 Years

Lifespan: >50, 000hrs

CRI: >70

Input Voltage: 100-277VAC

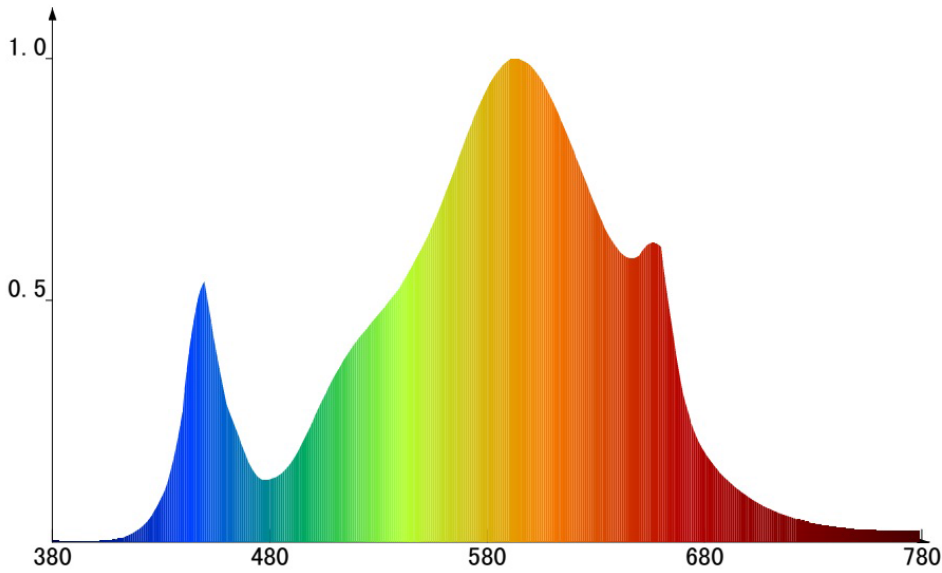

Power Factor: >0.98

Various Beam Angles

## TECHNICAL DATA

MODEL No.:	POWER (W)	LUMEN (lm)	BEAM ANGLE	Colour - Warm:White:Red
GRO/050/*	50	5000	60°/90°/120°/75°x148°	21:6:3
GRO/100/*	100	10000	60°/90°/120°/75°x148°	21:6:3
GRO/150/*	150	15000	60°/90°/120°/75°x148°	21:6:3
GRO/200/*	200	20000	60°/90°/120°/75°x148°	21:6:3

\* Beam Angle: 60° (060) / 90° (090) / 120° (120) / 75°x148° (758)
